I don't understand how Duke Energy can ask for an increase when they keep mailing out these free CFL light bulbs! I am a letter carrier and I know how much is wasted in this program. They keep sending them to each new resident that moves into apartments even though the maintenance crew is responsible for replacing bulbs. They have some nerve doing this and asking for a hefty rate increase in these economic times. I think we should say NO to this increase and tell them we shouldn't have to absorb their wasteful practices!
